

VERTICAL DANCE KIT

MAY, 13 TO 19 2019 PARIS 13 AND VAL-DE-MARNE COUNTY

Co-funded by the
Creative Europe Programme
of the European Union

VERTICAL DANCE KIT

takes place from 13 to 19 May 2019. This meeting is organised by Retouramont / Pôle de Danse Verticale in Charenton-Le-Pont, Vitry-sur-Seine (Val-de-Marne) and Paris. This event is the 6th meeting of the Vertical Dance Forum, a project realized with the support of Creative Europe.

VERTICAL DANCE KIT is a one-week-program. It will offer a full range of encounters and trainings with prominent European choreographers and institutions involved in the development of Vertical Dance as circus, dance, street art and architecture. The programme includes practical training and vertical dance workshops, panel discussions to reflect on the potentials of Vertical Dance as urban art, street acts and live performances. The general participation are open to the general public to learn more about Vertical Dance and/or to get involved. This event will open up new perspectives for the network and vertical dance.

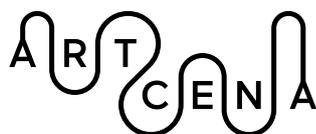

In partnership with **Coopérative de Rue et de Cirque (2r2c) - Paris 13ème** for the opening of « TEMPS DANSE #3 » (May 12 to June 8th), **La Briqueterie CDCN du Val-de-Marne**, **la Bibliothèque nationale de France** and **Artcena** as resources-partner.

Co-funded by the Creative Europe Programme of the European Union

During this meeting, we will offer to everyone to discover a «toolbox» that gives the materials to explore the verticality of a given territory and the techniques to understand Vertical Dance.

We will find the concept of the Kit / toolbox throughout the event and in all its forms, in areas of the Val-de-Marne County and Paris area.

Each appointment of the meeting offers a part of the « Kit / toolbox » that will put together like a puzzle to design the full picture of a vertical dance map.

OUR OBJECTIVE

is both to open a large debate in France and Europe between artists who practice this art form, and to cross our approach with other disciplines and professionals, such as artists, philosophers, scientists, architects, mobility experts, etc. We will also associate cultural organisations and institutions who welcome dance, circus, street arts and mountain climbing... and at the same time offer access to a wide audience.

2. The ascent of Vertical Dance

From its origins to hybridizations with other contemporary arts to its crossovers with societal issues.

Small auditorium - BnF - Site François-Mitterrand (Paris 13)
with simultaneous translation FR-EN

Introduction to the routes of Vertical Dance and the main reflexions around its art field: risks, limits and freedoms in public space...

We will present the results of bibliographic researches on vertical dance: articles, thesis and in particular the e-publication «Vertical Dance Pathways» by Kate Lawrence and Wanda Moretti, members of the VDF and university researchers.

Vertical dance in public space opens a wide range of topics and reflexions. Architects, urban planners, sociologists, anthropologists or philosophers are all city practitioners who will give a broad interpretation of this art field.

Facilitator: Gwenola David journalist, critic and General Manager of Artcena

With: Kate Lawrence Artistic director of VDKL, lecturer at Bangor University and doctor of philosophy from the School of Arts Faculty of Arts and Social Sciences / **Wanda Moretti** Artistic Director of Il Posto, lecturer / **Mourad Merzouki** choreographer of the Kafig company (CCN de Créteil)/ **Céline Torrent** Sorbonne Nouvelle University - Paris 3, professor at Ecole de Condé / **Scheherazade Zambrano** doctoral student in Arts at the University of Lille / **Emmanuel Posnic** Director of Cultural Affairs of Vitry-sur-Seine / **Thomas Hahn** journalist and critic in street art and architecture

POCKET VERTICAL DANCE

PUBLIC ROUTE FROM RUE WATT TO BnF

Final point of a laboratory lasting several days between the 7 choreographers (working in pairs) of the VDF and artists from all over the world who will work around this instruction: what can we invent with portable mini apparatus ?

A route from rue Watt ending at the BnF. The audience will follow it like a paper chase in the city.

ST(A)IR ME UP

Through this participative action, we invite the general public to come and discover the BnF and 13th district from the sky in a different way.

We discover the alleys, the streets, the perspectives, the trees like geometric drawings. Our feelings of the spaces will be shaken up.

PREMIERE «DIAGONALES ASCENDANTES»

This show will be the highlight of Vertical Dance Kit and «Temps Danse #3» festival. New production of Retouramont on the towers of the François Mitterrand Site of the BnF.

**VERTICAL
DANCE
FORUM**

Created on Retouramont company's initiative in 2014, the Vertical Dance Forum is a network of **7 vertical dance companies working in Europe and Canada.**

Il Posto (Italy) – **Fidget Feet Aerial Dance Theatre** (Ireland) – **Gravity & Levity** (UK) – **Histeria Nova** (Croatia) – **Aeriosa** (Canada) – **Retouramont** (France) – **Vertical Dance Kate Lawrence VDKL** (Wales).

The Vertical Dance Forum gathers to exchange and reflect on its practice in all its artistic, teaching and technical diversity.

Our approach aims to increase the appreciation and recognition of this art form, while respecting the safety it requires, in order to share it with everyone: artists, institutions and the public.

A network reflecting on the diversity of Vertical Dance

Vertical Dance was born from diverse arts and practices: circus, dance, climbing, speleology, parkour...

Our group reflects on the diversity of origins and current practices ranging from urban sites and architecture to working in natural landscapes : cliffs, trees, and also in theatrical stage setting.

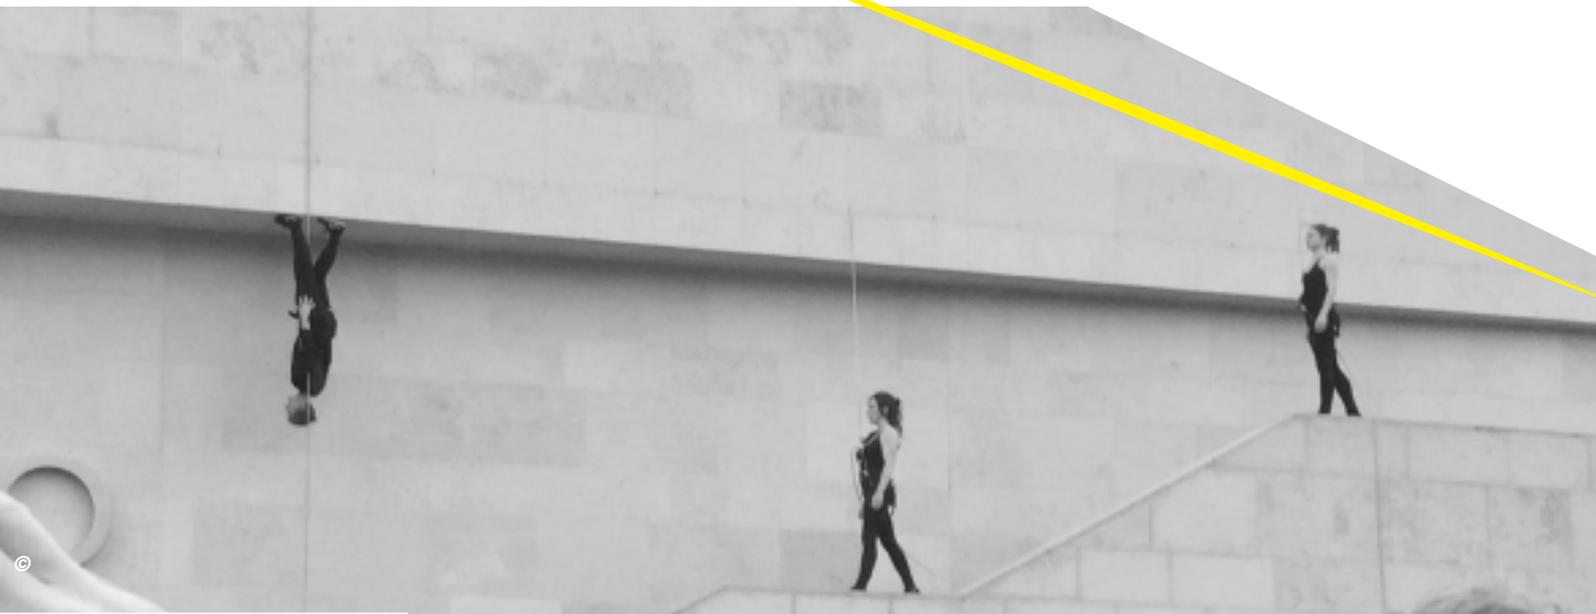

The collective VDF objectives are to experiment with new working methods that increase capacity building of vertical dance professionals by sharing knowledge and experiences through peer-to-peer relationships; facilitating the international mobility of knowledge, artists and artistic projects between Europe and the rest of the world; developing and supporting professional network strategies; stimulating experimentation with new collaborative working forms; raising new audience awareness; nurturing intercultural dialogue; capacity building education and training.

Each member proposes activities related to their individual expertise, location and interest in order to share it with other VDF members and invited sector professionals.

This is the first time that vertical dance creators have formally come together to exchange, learn from each other, work collaboratively and act collectively towards strengthening the wider vertical dance community and promoting this art form across a larger audience

SINCE 2017

VDF is co-funded by the Creative Europe programme of the European Union: « The Culture component helps to finance cooperation projects, literary translation, networks and platforms in the cultural and creative fields in the broad sense (performing arts, visual art, fashion, design, architecture, heritage, video games, books, etc.). »
